Member Care Hiring Team
Included Health

Re: Virtual Care Advocate, Tier 1 (January Cohort)

Dear Hiring Team,

I am applying for the Virtual Care Advocate role for the January cohort. For more than 13 years I have been the person patients and members call when they need help getting care — and since 2023 I have done that work fully remotely. Being the "front door" you describe is the work I know best.

At Denver Health, I spent ten years as a Care Navigator. I was the escalation point for complex cases: I listened, gathered the full picture, solved what I could, and handed off the rest to the right clinical or operations team with clear notes. I coordinated scheduling and referral follow-up, supported patients with sensitive needs, and redesigned our intake and navigation workflows, which became the department standard. That work earned me the American Cancer Society's national Lane Adams Quality of Life Award.

From 2023 to 2025 at Activate Care, I supported members entirely by phone and digital tools, connecting them to the right services and documenting every interaction for compliance. Most recently, at MedicaidSoft, I reviewed Medicaid eligibility documents and was the first point of contact for nursing home staff, tracking every case in Zoho. I have not used Athena or CXone yet, but I used Epic for ten years and pick up new systems quickly.

Included Health's mission — high-quality care for every person, no matter where they are in their health journey — is exactly why I chose this field. I am available to start on January 11. I am a U.S. citizen currently based in Brazil, and I would be glad to discuss how that fits with this contractor role.

Thank you for your time and consideration. I would welcome the chance to talk.

Sincerely,
Diogo Barbosa
