Hiring Team
Pager Health

Re: Bilingual Care Coordinator (Per Diem) – U.S. Remote

Dear Hiring Team,

I am applying for the Bilingual Care Coordinator position at Pager Health. For more than 13 years I have helped patients navigate the U.S. healthcare system in English and Spanish, and since 2023 I have done that work fully remotely. Supporting patients, resolving non-clinical barriers to care, and knowing when to bring in licensed staff is the work I know best.

At Denver Health, I spent ten years as a Care Navigator, coordinating care between patients, nurses, providers, and community partners. I handled scheduling, follow-up outreach, and resource connection, and I was the go-to person for complex cases — routing clinical concerns to the right licensed staff. I served Spanish-speaking patients and families every day and was the public face of our GI cancer prevention program for Spanish-speaking communities. That work earned me the American Cancer Society's national Lane Adams Quality of Life Award.

From 2023 to 2025 at Activate Care, I supported patients entirely by phone and digital tools, screening for social needs and connecting them to resources. Most recently, at MedicaidSoft, I was the point of contact for nursing home staff on Medicaid long-term care applications, tracking every case in Zoho and using AI tools daily. I learn new systems quickly and am comfortable working across several at once.

What draws me to Pager Health is the combination you describe: technology that reaches millions of members, with people who make sure every patient gets to the right care. I am available for weekend shifts, holidays, and the four-week full-time training. I am a U.S. citizen currently based in Brazil, and I would be glad to discuss how that fits with your team, especially given your work across the U.S. and Latin America.

Thank you for your time and consideration. I would welcome the chance to talk.

Sincerely,
Diogo Barbosa
